# MEGA READY MIX SP-800

**ULTRA FLEXIBLE LIQUID BINDER  
& READY MIX POWDER**

## PRODUCT DESCRIPTION

MEGA READY-MIX TP-800 is an ultra-flexible two-part liquid binder and powder designed for floor leveling, filling sags and depressions, and water retention on roofs. It can level surfaces from 1mm to 100mm+, ensuring 100% bonding and flexibility to prevent cracking and debonding.

## USES

- Level uneven floors for a smooth finish.
- Fill depressions in surfaces, restoring uniformity.
- Retain water on roofs, preventing leaks and water damage.

## ADVANTAGE

- **Versatility:** Suitable for multiple applications including floor leveling, filling sags and depressions, and water retention on roofs.
- **Wide Application Range:** Can level surfaces ranging from 1mm to 50mm, offering flexibility for various project requirements.
- **Strong Bonding:** Provides 100% bonding to surfaces, ensuring durable and long-lasting results.

- **Flexibility:** Maintains flexibility after application, reducing the risk of cracking and debonding over time.
- **Prevents Water Damage:** Helps retain water on roofs, preventing leakage and water-related damage.
- **Ease of Use:** Simple mixing and application process, making it convenient for construction projects.
- **Structural Integrity:** Enhances structural integrity by filling sags and depressions, ensuring a smooth and even surface finish.

## **METHODOLOGY**

To apply MEGA READY-MIX TP-800, a two-part component mortar, begin by mixing the powder and liquid components thoroughly according to the manufacturer's instructions until a homogeneous mixture is achieved. If necessary for workability, adjust the consistency by adding water as per site recommendations. Once the desired consistency is attained, the mortar is ready for application onto the surface. Use any appropriate tool, such as a trowel, to evenly spread the mortar, ensuring complete coverage. Smooth and level the surface as needed to achieve the desired finish. Allow the applied mortar to cure according to the manufacturer's specified curing time, ensuring protection from adverse weather conditions during this period. Finally, inspect the surface for any defects and make any necessary touch-ups before cleanup.

## **PACKING**

MEGA READY-MIX TP-800 is packaged in a Part A 25 kg powder and Part B 6 Kg liquid, designed for convenient handling and storage on construction sites.

### **TECHNICAL DATA**

<b>TECHNICAL DATA</b>	
Packing	25 Kg Powder and 6 Kg Liquid
Appearance	Liquid and Powder
Density	
Coverage	
Drying Time	

## CLEAN UP

Materials are difficult to remove when set. Clean tools and equipment before the material set.

## VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the product uses.

## HEALTH AND SAFETY INFORMATION

It is physiologically non hazardous once cured. However, follow standard Health & Safety Procedures when handling the product and wear gloves and face / eye protection. Avoid eye and skin contact. If skin contact occurs, wash with plenty of water and soap. In case of eye contact rinse with plenty of water and seek medical advice.

Non reacted material should only be disposed to special designated sites. It is better to let the product react with water to form foam before disposal in landfill sites.

The information given here is true, represents our best knowledge and is based not only on laboratory work but also on field experience. However, because of numerous factors affecting results, we offer this information without guarantee and no patent liability is assumed. For additional information or questions, please contact your local representative.

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Mega Sealers products, are given in good faith based on Mega Sealer's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Mega Sealer's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Mega Sealers reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
