MEGA READY MIX SP-802

**READY TO USE WATER-
PROOF PLASTER**

PRODUCT DESCRIPTION

MEGA READY-MIX SP-802 is a ready-to-use waterproof plaster specially formulated for effective moisture management in construction projects. Designed to address various moisture-related issues, this plaster serves multiple purposes including resigning dampness, controlling negative water pressure, and managing moisture levels within structures.

USES

- Resolving dampness in walls or surfaces
- Controlling water pressure to prevent infiltration
- Managing moisture levels to avoid damage
- Suitable for both interior and exterior applications

ADVANTAGE

- Addresses dampness problems by creating a moisture-resistant barrier.
- Helps in drying out wet areas, preventing further moisture accumulation.
- Resolves issues like seepage or leaks, ensuring a dry environment.

- Manages water pressure by providing a protective seal against infiltration.
- Prevents the inward flow of water, reducing the risk of structural damage.
- Ensures stability and integrity of constructions under varying water pressure conditions.
- Regulates moisture levels within structures, maintaining optimal conditions.
- Prevents moisture-related damage such as corrosion, rot, or decay.
- Inhibits mold and mildew growth, promoting healthier indoor environments.
- Suitable for a wide range of indoor construction projects like basements or bathrooms.
- Also effective for outdoor applications such as foundation waterproofing or roof sealing.
- Offers flexibility in addressing moisture control needs in diverse settings.

METHODOLOGY

To apply MEGA REDAY-MIX SP-802, a dry powder mortar, begin by transferring the powder into a clean mixing bucket, adjusting the water quantity based on whether a sage or non-sage material is needed, and thoroughly mix until a consistent mortar is formed. Then, using any trowel, apply the prepared mortar onto the surface evenly, ensuring adequate coverage. Smooth and level the mortar with the trowel as necessary to achieve a uniform finish. Allow the applied mortar to cure according to manufacturer instructions, protecting it from adverse weather conditions during the curing process. Finally, inspect the surface for any defects and make necessary touch-ups before cleanup

PACKING

MEGA READY-MIX SP-802 is conveniently available in 20 kg packaging, ensuring ease of handling and storage on construction sites.

TECHNICAL DATA

Packing	20 kg
Appearance	Powder
Density	
Coverage	
Drying Time	

CLEAN UP

Materials are difficult to remove when set. Clean tools and equipment before the material set.

VALUE BASE

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the product uses.

HEALTH AND SAFETY INFORMATION

It is physiologically non hazardous once cured. However, follow standard Health & Safety Procedures when handling the product and wear gloves and face / eye protection. Avoid eye and skin contact. If skin contact occurs, wash with plenty of water and soap. In case of eye contact rinse with plenty of water and seek medical advice.

Non reacted material should only be disposed to special designated sites. It is better to let the product react with water to form foam before disposal in landfill sites.

The information given here is true, represents our best knowledge and is based not only on laboratory work but also on field experience. However, because of numerous factors affecting results, we offer this information without guarantee and no patent liability is assumed. For additional information or questions, please contact your local representative.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Mega Sealers products, are given in good faith based on Mega Sealer's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Mega Sealer's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Mega Sealers reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
